

## CS101

**Note:**

VuGujranwala.com is not responsible for any solved solution, but honestly we are trying our best to Guide correctly.

**Exam Term : Mid**  
**Total MCQS : 110**

**Prepared By :**

1 - The father of Computer?

1. Ada
2. Charles Babbage
3. Charles
4. Gary Kasparov

**Correct Choice : 2**

**From Lectuer # 1**

[www.vugujranwala.com](http://www.vugujranwala.com)

2 - Deep Blue?

1. A Supercomputer
2. A Chess Game
3. A Personal Computer
4. A Mainframe Computer

**Correct Choice : 1**

**From Lectuer # 1**

[www.vugujranwala.com](http://www.vugujranwala.com)

3 - Deep Blue was designed by

1. IBM
2. Macintosh
3. Apple Computers
4. Dell

**Correct Choice : 1**

**From Lectuer # 1**

[www.vugujranwala.com](http://www.vugujranwala.com)

4 - Who is called the Mother of Computer?

1. Ada
2. Charles Babbage
3. Charles
4. Gary Kasparov

**Correct Choice : 1**

**From Lectuer # 1**

[www.vugujranwala.com](http://www.vugujranwala.com)

5 - Who many chess move can analyze a Deep Blue in three minutes.

1. 300 billion
2. 400 billion
3. 200 billion
4. 700 billion

**Correct Choice : 1**

**From Lectuer # 1**

[www.vugujranwala.com](http://www.vugujranwala.com)

6 - World's first program was written by

1. Charles Babbage
2. Ada Lovelace
3. Bernouli
4. Newton

**Correct Choice : 2**

**From Lectuer # 1**

[www.vugujranwala.com](http://www.vugujranwala.com)

7 - The world's first electronic digital computer.

1. Atanasoff-Berry(ABC)
2. International business machine( IBM)
3. Macintosh(MAC)
4. MARK 1

**Correct Choice : 1**

**From Lectuer # 2**

[www.vugujranwala.com](http://www.vugujranwala.com)

8 - Vacuum Tubes are:

1. Smaller then transistors
2. Made up of two or more electrodes in a glass metal tube
3. Used in IBM PC
4. Invented by Tim Berners lee

**Correct Choice : 2**

**From Lectuer # 2**

[www.vugujranwala.com](http://www.vugujranwala.com)

[www.vugujranwala.com](http://www.vugujranwala.com)

10 - Web server:

1. Is a software to deliver e-mail
2. Is a computer that store and deliver web pages
3. Does not allow electronic chatting
4. Does not have a Domain name

**Correct Choice : 2**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

11 - A Hyperlink is a:

1. Connection between two computers
2. Connection between two countries on the net
3. Gateway to the next web page
4. Gateway between five continents

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

12 - Search engines:

1. Scan the entire web for the desired information
2. Search the news groups for the required information
3. Make the list of images that are available on the net
4. Are built to facilitate the scientists

**Correct Choice : 1**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

13 - What does internet service provider mean?

1. A software that helps you to connect to internet
2. A company that helps you to connect to internet
3. A software that allows you to send/receive e-mails
4. A telephone network which helps you to connect to internet

**Correct Choice : 4**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

14 - URL is a/an \_\_\_\_\_.

1. Device
2. Component
3. Address
4. Tool

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

15 - What is internet?

1. A global network of networks
2. A Software used to connect to some network
3. A group of users
4. Any network of more than two computers

**Correct Choice : 1**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

16 - HTTP is the abbreviation for:

1. Hyper text transmit protocol
2. Hyper text terminal protocol
3. Hyper Text Transfer Protocol
4. Hyper terminal text protocol

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

17 - Browser is a \_\_\_\_\_ used for browsing.

1. Component
2. Tool
3. None of these
4. Device

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

18 - Semantic web pages

1. Are also called static web pages
2. Are understood by computers
3. Are not the extension of today's web pages
4. Correct the semantics of the web page

**Correct Choice : 2**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

19 - A unique identifier for the location of a specific Web page is called a

1. FAQ
2. FTP
3. URL
4. http://

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**20 - Search engines**

1. Search the news groups for the required information
2. Scan the entire web for the desired information
3. Cannot search the entire web
4. Make the list of images that are available on the net

**Correct Choice : 2**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**21 - A web site**

1. Is a place where we can only read information on the internet
2. Is a collection of related documents on the internet
3. Is a place on the net where we can only write information
- 4.

**Correct Choice : 2**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**22 - Where is the Internet's central hub and control center located?**

1. Near Washington D.C.
2. Near the Microsoft campus in Redmond, Washington
3. In a top-secret location
4. Nowhere, the Internet has no central hub

**Correct Choice : 4**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**23 - Which of these domains is restricted to qualified organizations?**

1. .com
2. .org
3. .net
4. .edu

**Correct Choice : 2**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**24 - The first Web pages were**

1. Strictly hypertext with no multimedia content
2. Designed to simulate printed pages using HTML's table tools
3. The first true multimedia documents to be published on the Internet
4. Sent via email from Doug Engelbart's office on the Stanford campus

**Correct Choice : 1**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**25 - The Internet offers different services. Which one listed below is incorrect?**

1. Chat room
2. Electronic mail
3. Off line shopping
4. World Wide Web

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**26 -** What does HTML stand for?

1. Hyper Text Markup Language
2. Home Tool Markup Language
3. Hyperlinks and Text Markup Language
4. None Of the Above

**Correct Choice : 1**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**27 -** The Internet was originally a

1. LAN at MIT
2. Code-cracking network during World War II by the U.S. Defense Department
3. A network cooperatively created by several large hardware and software companies
4. A small experimental research network called ARPANET

**Correct Choice : 3**

**From Lectuer # 3**

[www.vugujranwala.com](http://www.vugujranwala.com)

**28 -** Ports are:

1. Input devices
2. Output devices
3. Used to allow I/O devices to communicate with the CPU
4. Able to process incoming data

**Correct Choice : 3**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**29 -** Modem is used:

1. Only to enter data into computer
2. For calculating huge numbers
3. For communication of data between internet and your computer
4. To write information on the world wide web

**Correct Choice : 3**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**30 -** What computer hardware is essential for connecting two computers in Local Area Network?

1. Modem
2. Ethernet card
3. VGA
4. Internet Connection

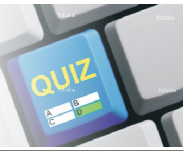

**Correct Choice : 2**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**31 -** The input device that reads printed characters, symbols, or graphical images into the computer is the:

1. Sensors

2. Speech recognition
3. Mouse.
4. Scanner

**Correct Choice : 4**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**32 -** Computer uses the scanner to input

1. Voice.
2. Images.
3. Voice and text.
4. None of these

**Correct Choice : 2**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**33 -** Software is

1. Something that can be touched
2. Something that cannot be touched
3. Something used only as an output device
4. Something used only as an input device

**Correct Choice : 2**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**34 -** Which of the following is called the brain of computer?

1. Motherboard
2. Slots
3. Processor
4. Power supply

**Correct Choice : 3**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**35 -** ----- is volatile memory

1. RAM
2. ROM
3. Hard Disk
4. CD ROM

**Correct Choice : 1**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

[www.vugujranwala.com](http://www.vugujranwala.com)

[www.vugujranwala.com](http://www.vugujranwala.com)

**38 -** When the electrical power is disrupted or cut off, data and programs are lost in/on (the) ...

1. basic tools.
2. hard disk.
3. memory.
4. secondary storage.

**Correct Choice : 3**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**39 - Read Only Memory (ROM)**

1. Is Volatile
2. Is programmable
3. Is mounted on the mother board
4. is Non Voatile

**Correct Choice : 4**

**From Lectuer # 4**

[www.vugujranwala.com](http://www.vugujranwala.com)

**40 - Using only Html we can create**

1. Dynamic web pages
2. Static web pages
3. Both Static and Dynamic pages
4. None of these

**Correct Choice : 2**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**41 - The following code will " < Html >< HEAD > < TITLE > My new Web Page < / TITLE > < / HEAD >< /Html > "**

1. Display "My new Web Page " As a heading on my Web page
2. Display "My new Web Page " On the title bar of the browser
3. Display "My new Web Page " as a hyper link
4. Make "My new Web Page " appear in bold letters

**Correct Choice : 2**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**42 - In an HTML file, it is essential to have**

1. < Head > tag
2. < /Body > tag
3. < Body > tag
4. None of above

**Correct Choice : 3**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**43 - Choose the correct HTML tag for the largest heading**

1. < head >
2. < h6 >
3. < h1 >
4. < heading >

**Correct Choice : 3**

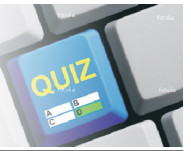

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**44 - What is the correct HTML tag for inserting a line break?**

1. < break / >
2. < br / >
3. < lb / >

4. < breakline >

**Correct Choice : 2**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**45 - Choose the correct HTML tag to make a text bold**

1. < b >
2. < bold >
3. < boder >
4. None Of the Above

**Correct Choice : 1**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**46 - Choose the correct HTML tag to make a text italic**

1. < italic >
2. < i >
3. < skew >
4. None Of the Above

**Correct Choice : 2**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**47 - What is the correct HTML for creating a hyperlink?**

1. < a href="http://www. Vugujranwala.com" > Vugujranwala.com< /a >
2. < a url="http://www. Vugujranwala.com" > Vugujranwala.com< /a >
3. < a >http://www. Vugujranwala.com< /a >
4. < a name="http://www. Vugujranwala.com" > Vugujranwala.com< /a >

**Correct Choice : 1**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**48 - How can you create an e-mail link?**

1. < mail href="abc@yahoo.com" >
2. < a href="mailto:abc@yahoo.com" >
3. < a href="abc@yahoo.com" >
4. < mail >abc@yahoo.com< /mail >

**Correct Choice : 2**

**From Lectuer # 6**

[www.vugujranwala.com](http://www.vugujranwala.com)

**49 - Memory inside a microprocessor is called**

1. RAM
2. ROM
3. Cache
4. Pre-fetch buffer

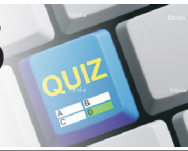

**Correct Choice : 3**

**From Lectuer # 7**

[www.vugujranwala.com](http://www.vugujranwala.com)

**50 - A hardware device that stores data and programs, executes program instructions, and performs arithmetic/logic operations is known as the \_\_\_\_.**

1. CPU
2. Integrated Circuit

3. Main Storage
4. Memory

**Correct Choice : 1**

**From Lectuer # 7**

[www.vugujranwala.com](http://www.vugujranwala.com)

**51** - The component of the central processing unit that holds instructions, stores data and keeps results during the processing is called the:

1. Arithmetic/Logic unit.
2. Control unit
3. Main memory
4. Micro processing chip

**Correct Choice : 1**

**From Lectuer # 7**

[www.vugujranwala.com](http://www.vugujranwala.com)

**52** - Microprocessor are made up of semiconductor material called

1. Aluminum
2. Ferrous oxide
3. Silicon
4. Silicon dioxide

**Correct Choice : 3**

**From Lectuer # 7**

[www.vugujranwala.com](http://www.vugujranwala.com)

**53** - A group of binary digits that a computer manipulate as a unit is called

1. Byte
2. Word
3. Bit
4. Hertz

**Correct Choice : 1**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**54** - The decimal equivalent of binary 1000 is

1. 7
2. 8
3. 9
4. 10

**Correct Choice : 2**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**55** - In the AND operation output is true if

1. All input variables have true state
2. Some of the input variables have true state
3. None of the input variables have true state
4. All the input variables have false state

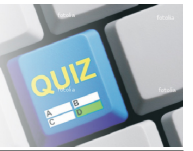

**Correct Choice : 1**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**56** - Which of the following binary numbers is equivalent to decimal 10

1. 1000

2. 1100
3. 1001
4. 1010

**Correct Choice : 4**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**57** - The \_\_\_\_\_ operation says if any input is on then the output will be on.

1. OR
2. NAND
3. NOR
4. AND

**Correct Choice : 1**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**58** - The \_\_\_\_\_ operation says if and only if all inputs are on, the output will be on. The output will be off if any of the inputs are off.

1. OR
2. NAND
3. NOR
4. AND

**Correct Choice : 4**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**59** - \_\_\_\_\_ simply changes the input to the opposite (0 to 1 or 1 to 0).

1. Operator
2. NOT
3. AND
4. OR

**Correct Choice : 2**

**From Lectuer # 8**

[www.vugujranwala.com](http://www.vugujranwala.com)

**60** - Which of the following cannot come between the < Body >< /Body > tag

1. < P >
2. < A HERF >< /A >
3. < Title >< /Title >
4. < BR >< /BR >

**Correct Choice : 3**

**From Lectuer # 9**

[www.vugujranwala.com](http://www.vugujranwala.com)

**61** - < UL > tag is used to

1. underline text
2. end the line
3. create ordered list
4. create unordered list

**Correct Choice : 4**

**From Lectuer # 9**

[www.vugujranwala.com](http://www.vugujranwala.com)

**62** - Which of these tags are all < table > tags?

1. < thead >< body >< tr >
2. < table >< tr >< tt >
3. < table >< tr >< td >
4. < table >< head >< tfoot >

**Correct Choice : 3**

**From Lectuer # 9**

[www.vugujranwala.com](http://www.vugujranwala.com)

**63** - How can you make a list that lists the items with numbers?

1. < dl >
2. < ul >
3. < ol >
4. < list >

**Correct Choice : 3**

**From Lectuer # 9**

[www.vugujranwala.com](http://www.vugujranwala.com)

**64** - How can you make a list that lists the items with bullets?

1. < ol >
2. < ul >
3. < list >
4. < dl >

**Correct Choice : 2**

**From Lectuer # 9**

[www.vugujranwala.com](http://www.vugujranwala.com)

**65** - Choose the correct HTML to left-align the content inside a tablecell

1. < tdleft >
2. < td valign="left" >
3. < td leftalign >
4. < td align="left" >

**Correct Choice : 4**

**From Lectuer # 9**

[www.vugujranwala.com](http://www.vugujranwala.com)

**66** - The instruction written in high-level language are converted into low-level language by the \_\_\_\_\_

1. Operating System
2. Compiler
3. Parser
4. Router

**Correct Choice : 2**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**67** - Which software can provide results of mathematical calculations very easily?

1. Spreadsheets
2. Image processor
3. Word processor
4. None of these

**Correct Choice : 1**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**68** - Which of the following is the extension of graphics files?

1. .doc
2. .mdb
3. .gif
4. .tmp

**Correct Choice : 3**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**69 -** Command that allows you to remove mistakes

1. Copy
2. Delete
3. Cut
4. Undo

**Correct Choice : 4**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**70 -** \_\_\_\_\_ is readily understood by microprocessors and this language is very difficult to write in for human programmers.

1. Machine Language
2. Low Level Language
3. High Level Language
4. Assembly Language

**Correct Choice : 1**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**71 -** Which of the following command allows you to recover from mistakes in MS Word?

1. Undo
2. Clear
3. Edit
4. Break

**Correct Choice : 1**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**72 -** Which of the following is a type of system software?

1. Device driver
2. Word processor
3. Write once read -only- memory
4. Anti-Virus

**Correct Choice : 1**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**73 -** Language that is understood by computer hardware is called

1. High level language
2. Machine language
3. Assembly language
4. System software

**Correct Choice : 2**

**From Lectuer # 10**

[www.vugujranwala.com](http://www.vugujranwala.com)

**74 -** Applications talk to devices through the OS and OS talks to and manages devices

through\_\_\_\_\_.

1. File System
2. Application Interface
3. Kernel
4. Device Driver

**Correct Choice : 3**

**From Lectuer # 11**

[www.vugujranwala.com](http://www.vugujranwala.com)

**75 -** The collection of 4 bits is called \_\_\_\_\_.

1. Nibble
2. Byte
3. Word
4. Double-Word

**Correct Choice : 1**

**From Lectuer # 12**

[www.vugujranwala.com](http://www.vugujranwala.com)

**76 -** ASP script is

1. Linux based server script
2. Window based server script
3. Not a server side script
4. A data base management system

**Correct Choice : 2**

**From Lectuer # 12**

[www.vugujranwala.com](http://www.vugujranwala.com)

**77 -** The software that is used to write/send/receive an e-mail is called

1. Web browser
2. Mail Binder
3. E-mail Handler
4. E-mail Client

**Correct Choice : 4**

**From Lectuer # 13**

[www.vugujranwala.com](http://www.vugujranwala.com)

**78 -** Spreadsheet software

1. Is the replacement of ledgers
2. Is a replacement of encyclopedia
3. Are not used for business calculations and charts
4. Is a sub category of entertainment software.

**Correct Choice : 1**

**From Lectuer # 13**

[www.vugujranwala.com](http://www.vugujranwala.com)

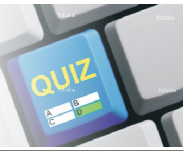

**79 -** Decision support systems are sometimes called

1. E-commerce software
2. Document-centered computing
3. Electronic Encyclopedia
4. Expert Systems

**Correct Choice : 4**

**From Lectuer # 13**

[www.vugujranwala.com](http://www.vugujranwala.com)

**80** - Software that directly interact with the user is called

1. Low level languages
2. System software
3. Application software
4. Machine language

**Correct Choice : 2**

**From Lectuer # 13**

[www.vugujranwala.com](http://www.vugujranwala.com)

**81** - Two major types of software are

1. Application Software, System Software
2. Application Software , Database Software
3. System Software , Database Software
4. Database Software , Embedded Software

**Correct Choice : 1**

**From Lectuer # 13**

[www.vugujranwala.com](http://www.vugujranwala.com)

**82** - A function is also called

1. Sub-program
2. Procedure
3. Sub-routine
4. All of the these

**Correct Choice : 4**

**From Lectuer # 15**

[www.vugujranwala.com](http://www.vugujranwala.com)

**83** - The advantage of client side scripting is

1. All browsers support it
2. Decreases the complexity of web page
3. Reduces network traffic
4. Increases server load

**Correct Choice : 3**

**From Lectuer # 15**

[www.vugujranwala.com](http://www.vugujranwala.com)

**84** - Specialized servers are used on the Internet to

1. Accept FTP requests to upload the download files
2. Store applications that are rented or leased by large corporations
3. Store and send Web pages
4. Function like email post offices

**Correct Choice :**

**From Lectuer # 15**

[www.vugujranwala.com](http://www.vugujranwala.com)

**85** - What is the correct HTML for adding a background color?

1. < background >yellow< /background >
2. < body bgcolor="yellow" >
3. < body background="yellow" >
4. bgcolor="yellow"

**Correct Choice : 2**
